

PLEASE COMPLETE THIS QUESTIONNAIRE AND RETURN IT WITH YOUR ANNUAL ASSESSMENT PAYMENT

Pursuant to the Water Augmentation Exemption Agreement dated January 28, 1997 ("Agreement") between the BOA and the State Engineer, the BOA is required to annually submit to the Colorado Division of Water Resources, a summary of which Buffalo subdivision lots have wells, a current list of names and addresses of those lot/well owners, which of these lots are occupied on a year-round basis, and the estimated days of usage of all wells within the Buffalo.

The Agreement specifically states that "... not more that 100 of the Buffalo Subdivision's 975 lots will be occupied year round, and that the average occupancy of the remaining lots will not exceed an average of 30 days per year."

The Agreement further requires the Association "... to notify the State Engineer in writing if it is aware that water from any well within the subdivision is being used outside for the watering of domestic animals, or irrigation of any kind, or for commercial use."

Please provide the following information for each of your lots owned and return this form with your annual assessment(s): **NOTES:** (1) Do not lump lots together, use spaces below, or on additional pages, for additional lot information.
